

FAECTOR

Committees

January 2022

**Recognised
school association
Erasmus School
of Economics.**

Committees at FAECTOR

Our school association would not be as great as it is now if it was not for our Active Members. As a member of one of the many committees of FAECTOR, you support the board in organising great events for all members. From organising social drinks and parties or formal career events with employers to writing articles for the Estimator – there are so many possibilities. The purpose of this booklet is to inform you on all committees that open up in January and what being an Active Member at FAECTOR exactly means.

We included a lot of information about the committees which are opening up. Every committee description contains the number of spots available and the different positions within that committee. Moreover, you will find the profile of the students that we are looking for.

At the end of this booklet, the procedure for applying for one or more committees is described.

We hope that this booklet gives you a good overview of the committees we have, what they do and who we are looking for. Of course, we can never provide all information in these couple of pages. If you have any questions or would like to hear more about experience of being an Active Member, do not hesitate to send us an e-mail or come by at our office. We hope to see you at the Committee Information Sessions on December 1st and January 5th and are looking forward to your application!

Kind regards,

The 56th Board of FAECTOR

Why you should become an Active Member at FAECTOR!

Joining a FAECTOR Committee comes with many benefits as you will

- Meet a lot of fellow students of different years in a short amount of time;
- Build friendships for the rest of your life;
- Collect unforgettable memories by joining the activities that are exclusively for Active Members. Among others the traditional Active Members Weekend and the Active Members Dinner;
- Develop yourself in different areas. You will learn how to work in a team and improve your social and organisational skills. These are really valuable skills that you don't get to learn in the lecture hall;
- Boost your CV! Being active in committees next to your studies is a huge plus to many employers;
- Not have to worry about your study progress. This is the number one priority for us and as everyone at FAECTOR has exams at the same time, we fully take this into account while planning our events.

Econometric Career Days Committee

Do you want to organise the biggest on-campus career event for econometricians in the Netherlands? The Econometric Career Days (ECD) connects highly motivated Econometrics & Operations Research students from Erasmus University Rotterdam with prestigious companies. During the 9th edition 37 different companies have participated in various events, like cases, presentations and dinners.

Do you think you can beat the 2021 edition? Then this committee might be something for you! Hereby we described the various positions available

within the ECD committee.

Chairman (): The chairman is responsible for the general well-being of the ECD and the committee. He or she is the one leading the weekly meetings.

Secretary (): The secretary is the connection between the students and the ECD and handles all questions coming in from all other parties. Next to that, you will be responsible for organising the Grand Opening.

Treasurer (/): The treasurer is responsible for making and managing the budget for the next ECD.

External Officer (): This position gives you the opportunity to get in contact with a lot of prestigious companies and great speakers, as it is your responsibility that they participate in the ECD 2022.

Marketing Officer (/): Your main tasks as one of the Marketing Officers will be developing a promotion plan, designing, making students aware of the event and establishing a good image of the ECD. The Offline Marketing Officer will further order all the necessary merchandise and make sure that the ECD

is represented on the campus of the Erasmus University. The On-line Marketing Officer will next to that make sure that the social media channels and the website of the ECD is kept up to date.

Day Coordinator (): As a day coordinator you have to make sure that the next ECD will run smoothly. Hereby you can think on such tasks as arranging the locations and catering as well as making detailed day plans.

When the interviews for the ECD committee are done, we will allocate the different positions over the six selected committee members based on your preferences and your qualities.

Who are we looking for?

We are looking for students in

their Bachelor 2+ or (pre)-Master or study phase who are very driven, motivated and social. Besides that, we like to see that you have affinity with the business community and companies in relevant econometric fields. Moreover, you need to have excellent communication skills, since you'll constantly be in contact with your committee, the board and many other involved parties.

Some of the roles within the committee can be combined. For example, the day-coordinator tasks can be done next to other roles, as the peak of the workload of this role will be in the week before and during the ECD.

To apply for this committee, we would like to ask you to hand in a motivation letter together with your application.

Estimator Committee

As a member of the Estimator Committee you are responsible for one of the most important media outlets of FAECTOR. The Estimator Committee writes both informative and entertaining articles for all FAECTOR members. As a committee member it is your responsibility to constantly look out for interesting topics and to brainstorm about the goals and future of the Estimator in general.

The challenge for the next Estimator Committee is to come up with new creative ways to introduce our readers to many relevant topics. This way, an Estimator Committee member is involved with many facets of

FAECTOR and econometrics in general. You will get a lot of freedom and responsibility to implement your own ideas and get the chance to contact and meet interesting companies and fascinating (famous) people. By joining this committee, you will develop your writing skills, meet unique people and get in contact with lots of interesting topics.

Who are we looking for?

The Estimator Committee is open to students from all years. We are looking for creative students with a broad interest who love to write and constantly come up with innovative ideas.

Members: 5-8

Positions

Chairman
4-7 members

“Develop your writing skills, meet unique people and learn about interesting topics”

Event Committee

Do you want to organise many social events of FAECTOR for your fellow students? Then the Event Committee might be something for you! The Event Committee organises all sorts of events, such as a beercantus and dinners for different years. The committee also has the freedom to come up with creative ideas.

Who are we looking for?

The Event Committee is open to students from all years. We are looking for social students who want to improve their organisational skills and can make others enthusiastic for their events. The committee will consist of five students, a chairman and four members who

will rotate the roles of secretary, treasurer, marketing officer and external officer.

“Organise some of FAECTOR’s largest social events”

Eurekaweeek Committee

This year is the first time for FAECTOR that the Eurekaweeek Committee opens!

The Eurekaweeek is the first opportunity for new students to meet FAECTOR. As a member of the committee, you are responsible for organising the Eurekaweeek on behalf of FAECTOR. You will organise various events such as dinners and games. Furthermore, you will also be in contact with the Eurekaweeek guides for econometrics and be in contact with the Eurekaweeek board of the university. After an intense week, you will have given all those new students the best week of their lives.

Who are we looking for?

We are looking for enthusiastic students that want to share their stories about their student life with new students. Furthermore, you should be stress resistant, since it can sometimes be challenging during the Eurekaweeek. The Eurekaweeek committee is open for all bachelor students.

Members: 4

freshmen students
in a fun way.”**

IT Committee

As a member of the IT committee you are responsible for all technological innovations within FAECTOR. It is a very important committee of FAECTOR which continuously ensures that the association becomes more efficient.

The committee consists of people who all have affinity with programming and can think out of the box. Throughout the year you will work together in a weekly meeting, this way you can tackle the problems you are facing together.

Who are we looking for?

We are looking for students who all have some programming skills, it is not necessary to master it completely, however it is required to have affinity with programming and technology in general. The committee opens for bachelor and (pre-)master students.

“Develop your programming skills outside the university curriculum.”

Members: 2-5

Positions

Chairman
1-4 members

Ski Trip Committee

The Ski Trip Committee organises our yearly FAECTOR ski trip, which will take place in January 2023. Besides that, this committee organises the Landelijke Econometristen Sport Toernooi (LEST), which is the largest informal event for econometricians in the Netherlands. The LEST takes place in fall 2022 and is a sports tournament specifically for econometricians all around the Netherlands. Hence, you will meet students from outside Rotterdam too!

Who are we looking for?

The Ski Trip Committee is open to students from all years. We

are looking for social students who want to improve their organisational skills and learn how to work within a team. Furthermore, you will also need to do acquisition for the LEST, which means you will have to get in contact with different companies. Therefore, this committee is the perfect opportunity to gain both professional and social skills!

“Organise large sports events with lots of fun!”

FAECTOR Research Project (FRP)

The FAECTOR Research Project is a very exciting and long-standing event organised by FAECTOR. This study project consists of two parts.

The first part is an internship, which will be arranged by FAECTOR at companies that are interesting for econometricians. Under supervision of a contact within that company and a teacher from the Econometric Institute a complete research report will be written about a topic that is relevant for the company. Af-

ter the valuable working experience you will be rewarded with an amazing trip that ventures to a place outside the European Union every year. The focus of this trip lies on experiencing different cultures, participating in exciting activities, visiting companies and local universities and of course enjoying your summer holiday!

As a member of the FAECTOR Research Project committee you will develop yourself in various ways. By arranging internships

“Gain valuable working experience during your internship.”

for the participants you will gain acquisition skills which you do together with the External Committee. By planning the study trip you will improve your organisational skills. Besides, you will do an internship at a company and top off your hard work with one of the best trips of your life!

Who are we looking for?

We are looking for students who are in the second year of their Bachelor Econometrie/Econometrics or in the third year of the BSc² programme. A FAECTOR Research Project committee member should be motivated, well organised and willing to put a lot of time and effort in their work.

“A trip full of amazing memories to remember forever!”

Apply for a Committee

The subscriptions for all of the committees named before are open now. Do you want to contribute to FAECTOR's projects and activities? Do you want to enrich your skills and capabilities? Do you think you got what it takes? Take action and apply for one of our amazing committees! This is how it works:

Step 1: Application

The subscriptions for the committees in January are open on our website, www.faector.nl. Fill in the form and upload your CV and motivation letter to apply before **Friday 14 January, 23:59**.

Step 2: Interview

If we consider that you are a suitable candidate on the basis of your CV (and motivation letter if applicable), we will invite you for an interview at the FAECTOR office in the week of 20th of January.

Step 3: Committee Announcements

When all interviews have been finished, we will announce the committees shortly after.

Step 1: Apply

Upload your CV (and motivation letter for the ECD Committee) on our website

Step 2: Interview

Show off your motivation and ideas during an interview

Step 3: Announcement

We will announce the new committees shortly after the last interviews

Board Interest

Are you interested in a board year at FAECTOR? Or has the thought crossed your mind while looking at our new committees? You can apply for the 57th board of FAECTOR, and it does not matter whether you are or have been an Active Member at FAECTOR.

If you did not think about applying for a board year at FAECTOR yet we would like to encourage you to do so. A board year is a year full with great opportunities and a lot of fun. The current board is always open to answer any questions you might have. As this is a big decision you can't start thinking about it early enough! On Monday 7 March 2022, we will organise a board interest drink which you can attend.
