

FAECTOR

Committees

May 2023

**Recognised
school association
Erasmus School
of Economics.**

Committees at FAECTOR

Our school association would not be as great as it is now if it was not for our Active Members. As a member of one of the many committees of FAECTOR, you support the board in organising great events for all members. From organising social drinks and parties or formal career events with employers to writing articles for the Estimator – there are so many possibilities. The purpose of this booklet is to inform you on all committees that open up in May and what being an Active Member at FAECTOR exactly means.

We included a lot of information about the committees which are opening up. Every committee description contains the number of spots available and the different positions within that committee. Moreover, you will find the profile of the students that we are looking for.

At the end of this booklet, the procedure for applying for one or more committees is described.

We hope that this booklet gives you a good overview of the committees we have, what they do and who we are looking for. Of course, we can never provide all information in these couple of pages. If you have any questions or would like to hear more about experience of being an Active Member, do not hesitate to send us an e-mail or come by at our office. We hope to see you at the Committee Information Session on 25 May and are looking forward to your application!

Kind regards,

The 57th Board of FAECTOR

Why you should become an Active Member at FAECTOR!

Joining a FAECTOR Committee comes with many benefits as you will

- Meet a lot of fellow students of different years in a short amount of time;
- Build friendships for the rest of your life;
- Collect unforgettable memories by joining the activities that are exclusively for Active Members. Among others the traditional Active Members Weekend and the Active Members Dinner;
- Develop yourself in different areas. You will learn how to work in a team and improve your social and organisational skills. These are really valuable skills that you don't get to learn in the lecture hall;
- Boost your CV! Being active in committees next to your studies is a huge plus to many employers;
- Not have to worry about your study progress. This is the number one priority for us and as everyone at FAECTOR has exams at the same time, we fully take this into account while planning our events.

Econometric Career Days Committee

Do you want to organise the biggest on-campus career event for econometricians in the Netherlands? The Econometric Career Days (ECD) connects highly motivated Econometrics & Operations Research students from Erasmus University Rotterdam with prestigious companies. During the 10th edition 48 different companies have participated in various events, like cases, presentations and dinners.

Do you think you can beat the 2022 edition? Then this committee might be something for you! Hereby we described the various positions available within the ECD committee.

External Officer (🇳🇱): This position gives you the opportunity to get in contact with a lot of prestigious companies and great speakers, as it is your responsibility that they participate in the ECD 2023.

Day Coordinator (🇳🇱): As a day coordinator you have to make sure that the next ECD will run smoothly. Hereby you can think on such tasks as arranging the locations and catering as well as making detailed day plans.

When the interviews for the ECD committee are done, we will allocate the different posi-

tions over the six selected committee members based on your preferences and your qualities.

Marketing Officer (🇳🇱/🇬🇧): Your main tasks as one of the marketing officers will be developing a promotion plan, designing, making students aware of the event and establishing a good image of the ECD. The marketing officers will order all the necessary merchandise and make sure that the ECD is represented on the campus of the Erasmus University. Next to that, you make sure that the social media channels and the web-

site of the ECD are kept up to date.

Who are we looking for?

We are looking for students in their Bachelor 2+ or (pre)-Master or study phase who are very driven, motivated and social. Besides that, we like to see that you have affinity with the business community and companies in relevant econometric fields. Moreover, you need to have excellent communication skills, since you'll constantly be in contact with your committee, the board and many other involved parties.

Some of the roles within the committee can be combined. For example, the day-coordinator tasks can be done next to other roles, as the peak of the workload of this role will be in the week before and during the

ECD.

To apply for this committee, we would like to ask you to hand in a motivation letter together with your application.

The External Officer, Day Coordinator and Secretary & Marketing Officers positions open up in May.

Estimator Committee

As a member of the Estimator Committee you are responsible for one of the most important media outlets of FAECTOR. The Estimator Committee writes both informative and entertaining articles for all FAECTOR members. As a committee member it is your responsibility to constantly look out for interesting topics and to brainstorm about the goals and future of the Estimator in general.

The challenge for the next Estimator Committee is to come up with new creative ways to introduce our readers to many relevant topics. This way, an Estimator Committee member is involved with many facets of

FAECTOR and econometrics in general. You will get a lot of freedom and responsibility to implement your own ideas and get the chance to contact and meet interesting companies and fascinating (famous) people. By joining this committee, you will develop your writing skills, meet unique people and get in contact with lots of interesting topics.

Who are we looking for?

The Estimator Committee is open to students from all years. We are looking for creative students with a broad interest who love to write and constantly come up with innovative ideas.

“Develop your writing skills, meet unique people and learn about interesting topics”

Eerstejaarscommissie/Freshmen Committee Chair

Every year, a group of first-year students obtains a place in the Eerstejaarscommissie/Freshmen Committee – an important committee that carries a lot of responsibility, but moreover it is a lot of fun! These first-year students are going to organise social events that create memories lasting for a lifetime.

Last year, the Eerstejaarscommissie organised a wide spectrum of activities, varying from a pub quiz to a pool tournament. Besides activities during the year, you also get to organise the introduction weekend for Dutch students: PINKWIN! This weekend did not take place this

year, but is a great way for you to get to know the new first-year students!

By joining this committee, you come in contact with all first-year students as well as students from higher years. Apart from getting to know lots of new people, you also learn various skills that you do not learn by just going to your lectures.

Who are we looking for?

We are looking for pro-active and enthusiastic students who are driven and social. The only position opening up is the Chair.

“Organise fun events for freshmen students while becoming close friends!”

Recruitment Committee

The Recruitment Committee is responsible for organising one of the largest recruitment events of FAECTOR and managing the largest vacancy website for econometricians.

You organise The Inhouse Days, a multi-day recruitment event during which the participants will visit four companies in two days. The committee chooses a sector for this event and is fully responsible for acquiring the companies and the event's organisation. Furthermore, the Recruitment Committee is responsible for our vacancy website: Econometrie.com. Each

year the committee will acquire new companies for Econometrie.com to grow the number of vacancies on the website. Moreover, you keep the website up to date and set up a marketing campaign to promote the website.

You learn soft skills such as formal and informal company contact as a committee member. Furthermore, you learn how to do acquisition and promote an event on- and offline. Lastly, you are responsible for an extensive website seen by a significant percentage of quantitative students in the Netherlands.

IT Committee

As a member of the IT committee you are responsible for all technological innovations within FAECTOR. It is a very important committee of FAECTOR which continuously ensures that the association becomes more efficient.

The committee consists of people who all have affinity with programming and can think out of the box. Throughout the year you will work together in a weekly meeting, this way you can tackle the problems you are facing together.

Who are we looking for?

We are looking for students who all have some programming skills, it is not necessary to master it completely, however it is required to have affinity with programming and technology in general. The committee opens for bachelor and (pre-)master students.

“Develop your programming skills outside the university curriculum.”

Members: 2-5

Positions

Chairman
1-4 members

Workload

Dirkje Tutuarima
Marketing & Innovation
Officer
(marketing@faector.nl)

Excellence Programme Committee

The FAECTOR/ESE Excellence Programme is a programme designed for the highly-motivated students. The goal of the programme is to students the opportunity to explore different sides of an econometric theme not treated in the regular curriculum, by learning both the theory and how to apply it in practice.

The programme starts in January and ends in June. There are weekly sessions in block 3, 4 and 5 (excluding week 8 of each block), consisting of either a guest lecture, a company visit, or a workshop. The sessions (both lectures and workshops) will be on Wednesdays from 5

until 7 PM.

As part of the Excellence Programme committee you are in charge of all aspects of the organisation. Together with the rest of your committee and ESE you will decide on the topic for this year's programme. Furthermore, you'll handle all the contact with professors and companies giving guest lectures or hosting company visits. As an added bonus, you will also participate in the programme yourself, meaning you also receive the 4 extracurricular ECTS.

Who are we looking for?

We are looking for students who are not in their master next year.

consultancy.”**

Apply for a Committee

The subscriptions for all of the committees named before are open now. Do you want to contribute to FAECTOR's projects and activities? Do you want to enrich your skills and capabilities? Do you think you got what it takes? Take action and apply for one of our amazing committees! This is how it works:

Step 1: Application

The subscriptions for the committees in May are open on our website, www.faector.nl. Fill in the form and upload your CV and motivation letter to apply before **Sunday 28 May, 23:59**.

Step 2: Interview

If we consider that you are a suitable candidate on the basis of your CV (and motivation letter if applicable), we will invite you for an interview at the FAECTOR office in the week of 23 May.

Step 3: Committee Announcements

When all interviews have been finished, we will announce the committees shortly after.

Step 1: Apply

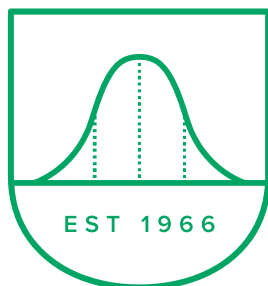

Upload your CV (and motivation letter for the ECD/Excellence) on our website

Step 2: Interview

Show off your motivation and ideas during an interview

Step 3: Announcement

We will announce the new committees shortly after the last interviews
